

Cal Plus

CALCIUM ADJUSTER

Focus Cal Plus prevents the etching of concrete surfaces, wrinkling of liners, breakdown of fibreglass and prevents equipment corrosion.

DESCRIPTION

An off white granular product.

ACTIVE CONSTITUENT

80% Calcium Chloride

PRODUCT BENEFITS

Protects the surface of the pool against etching, corrosion and pitting, ensuring extended life of the pool surface.

Prevents brittleness in vinyl liners.

Protects equipment and heat exchangers from corrosion.

Consistent quality.

NOTES

Care should be taken during application as the product may become warm. This product is mixed into a slurry in a bucket of water and broadcast into the pool with the pump and filter in operation.

During high humidity or extreme dampness, packaging may feel damp to the touch.
