## Quick FLOC

### CLARIFYING FLOCCULANT

**Focus Quick Floc** is a concentrated formula that is used for binding together small particulates for removal by the filter media. It works by dropping debris to the bottom of the pool floor for vacuuming to waste.

#### DESCRIPTION

A pink liquid

#### ACTIVE CONSTITUENT

Cationic Polymers

#### PRODUCT BENEFITS

Ready to use and easy to apply liquid formula

Fast acting

Flocs within 4-6 hours

Quickly removes suspended particulates for sparkling water.

#### NOTES

QuickFloc is equally effective in salt and chlorine pools and can be used in a wide range of pH.
