

# Stain Off

## DIRECTION FOR USE

POOL CAPACITY (Litres)				
	10,000	20,000	50,000	100,000
Dosage Rate	100g	500g	1kg	2kg

## GENERAL INSTRUCTIONS

**Stain Off** contains organic acids which when used as directed effectively removes stains and mineral deposits which dull the surfaces of pool and spas. Fibreglass and Vinyl surfaces are clearly improved, with Marbelite also responding to the removal of organic stains and rust marks.

## DESCRIPTION

Colourless powder with no odour; soluble in water.

## ACTIVE CONSTITUENT

Citric Acid Anhydrous

## PRODUCT BENEFITS

Fast acting

Ideal for Fibreglass and Vinyl surfaces

Easily removes calcium deposits and rust stains

Can be applied directly to area

## NOTES

It may be broadcast directly into the pool with pump and filter off or if stain is in a specific area may be poured through a length of PVC pipe directly onto spot.
