

Ultrasheen

DESCRIPTION

A pink liquid

ACTIVE CONSTITUENT

Highly concentrated clarifying agents

PRODUCT BENEFITS

Super strength concentrate

Rapid Response

Easy to apply

Unique packaging resulting in greater sales

Compliments the "Ultra" range of complete pool care

NOTES

Ensure filtration time is sufficient for the time of year and bather load etc.

Adjust pH if necessary.

Remove automatic pool cleaner from the pool.

Switch on the filtration system and ensure the filter is clean. If not, follow the instructions in the Filter Cleaning section.

Mix Ultrasheen in a 10L bucket of clean water and pour around the edges of the pool. BE CAREFUL not to spill Ultrasheen on the coping as it could become extremely slippery.

Run the filter continuously for a minimum of 6 hours or until the water sparkles and clarity has been restored.

Perform a backwash when necessary.

AVAILABLE SIZES

150ml
sachet
